Few sounds are more unwelcome on a stormy Lakeside night than water dripping somewhere it should not be. Wind-driven rain is part of life in this corner of north east Cardiff, and even well kept roofs can be caught out by a loose tile or a tired joint. Redland Roofing Cardiff, an independent, family-run business based in Rumney, has been repairing and replacing roofs across Cardiff and South East Wales for over 30 years and is a natural call for Lakeside households who want the job done properly. Lakeside has a mix of homes, and most of them share the same weak points. Damaged or missing tiles, cracked flashing around chimneys and skylights, blocked gutters, worn valleys and failed lead work are among the most common causes of leaks. Flat-roofed rear extensions, dormers and garages add their own risks, with cracked surfaces and opened joints letting water through. Welsh weather makes all of this worse, with wet winters and freeze-thaw cycles working on any small gap. Good roofers Cardiff residents can trust will trace the leak back to its source, which is not always directly above the damp patch, and the team takes the time to find it properly. Every job starts with an assessment and a clear explanation. Photos, and sometimes videos, show the problem so there is no guesswork about what needs doing. A free, no-obligation written quote follows, with transparent pricing and no hidden costs, and you will get honest advice rather than a sales pitch. Reviews often mention next-day repairs and competitive quotes, which is reassuring when water is coming in. The same approach applies across Lakeside, Cyncoed and Heath, as well as nearby Llanishen.
