2. **The Rare (Discontinued) Pool:** Older cases that no longer drop frequently. These drop at an extremely low rate (estimated at under 1% opportunity per drop) and tend to value substantially in value gradually.

The Odds: What Are the Chances of Winning Big?

Valve is lawfully needed in specific jurisdictions to divulge the chances of unboxing items of different rarities. While the precise float worths (wear conditions) and particular item drops stay randomized, the tier probabilities are repaired.
