The Core Wheel Segments

Before each spin, players put bets on where they believe the wheel will stop. The wheel includes numbers that pay out even cash or better, along with sections that set off the benefit rounds.

Wheel Segment Payout/ Action Possibility (Approximate) **1** Pays 1 to 1 ~ 39.23% (21 sectors) **2** Pays 2 to 1 ~ 25.00% (13 sectors) **5** Pays 5 to 1 ~ 13.46% (7 sections) **10** Pays 10 to 1 ~ 7.69% (4 segments) **Coin Flip** Triggers Bonus Round ~ 7.69% (4 segments) **Cash Hunt** Triggers Bonus Round ~ 3.85% (2. sections) **Pachinko** Sets Off Bonus Round ~ 3.85% (2 sectors) **Crazy Time** Triggers Bonus Round ~ 1.92% (1 section)

The Top Slot Feature

Adding an additional layer of anticipation to every round is the **Top Slot**, a two-reel mini fruit machine situated directly above the main money wheel.

As the live host encourages players to put their bets, the Top Slot spins concurrently with the primary wheel. It generates:

1. **A Bet Spot:** One of the wheel numbers or bonus video games.
2. **A Multiplier:** A multiplier worth varying from 2x approximately 50x.

If the primary wheel stops on the precise bet area that lines up with the Top Slot's selection, the multiplier is used to that win. For standard numbers, the payment is increased. For bonus offer rounds, the multipliers apply to the

preliminary values inside the bonus video game, setting the phase for potentially massive payments.

The Four Immersive Bonus Rounds

The true body and soul of Crazy Time are its 4 interactive bonus offer rounds. Whenever the wheel arrive on a reward section, all players who put a bet on that particular sector get to get involved.

1. Coin Flip

The easiest and most regular perk round. The host steps up to a device that flips a coin with a **Red** side and a **Blue** side.

- Before the flip, random multipliers are appointed to each side of the coin.
- The coin is automatically flipped, and whichever side lands face-up identifies the winning multiplier for the getting involved players.

2. Cash Hunt

This transforms the screen into a huge interactive shooting gallery including a screen with **108 random multipliers**.

- The multipliers are hidden behind different signs (like a cactus, target, chef's hat, and so on) and after that mixed.
- Players are offered a crosshair to goal and fire at a symbol of their choice before the timer runs out.
- Once time expires, all symbols expose their hidden multipliers, and players get the multiplier corresponding to the target they shot.

3. Pachinko

Inspired by the conventional Japanese arcade game, this bonus round takes place in front of a large physical wall filled with physical pegs.

- At the bottom of the wall are numerous multiplier zones, alongside a special "**DOUBLE**" zone.
- The host drops a puck from the top of the wall. As the puck bounces arbitrarily down through the pegs, it eventually lands in one of the multiplier slots at the bottom.
- If the puck arrive on "DOUBLE," all multipliers on the board are doubled, and the host drops the puck again for an even bigger prize.

4. Crazy Time

The supreme perk round takes gamers behind a red door into a lively, virtual, Alice-in-Wonderland-style world including a gigantic 64-segment wheel.

- Players must pick among three flappers (Green, Blue, or Yellow) at the top of the wheel.
- The host presses a huge red button to spin the wheel.

- The wheel features enormous multipliers, "DOUBLE," and "TRIPLE" segments. If a flapper arrive on a double or triple, all multipliers on the wheel are increased accordingly, and the wheel spins again. This can duplicate up until a shocking **20,000 x max multiplier** is reached.

Strategies and Approaches for Players

Due To The Fact That Crazy Time is ultimately a video game of opportunity regulated by Random Number Generators (RNGs) and physical mechanics, no method can ensure a win. However, gamers generally approach the game using a couple of unique styles:

- **The Low-Risk Approach:** Focusing greatly on the number segments (1 and 2) which make up the vast majority of the wheel. This method focuses on smaller sized, more regular payments to extend gameplay time.
- **The Bonus Hunter Strategy:** Placing smaller sized wagers specifically on the four bonus offer rounds (Coin Flip, Cash Hunt, Pachinko, Crazy Time). This method accepts regular droughts in exchange for the opportunity to take part in the game's highest-paying rounds.
- **The Balanced Approach:** Spreading bets throughout both numbers and benefit rounds to make sure a mix of consistent gameplay and access to high-value benefit functions.
