- *Example:* If Player A wins with **Rock**, Player B (the loser) is unlikely to toss Rock (duplicating) or Paper (which beats Rock). Therefore, Player B is statistically most likely to toss **Scissors** in the next round. To capitalize on this, Player A need to toss **Rock** again.

3. Psychological Warfare (Mind Games)

- **Verbal Priming:** Mentioning a shape out loud frequently unconsciously drives the challenger to play something else-- or forces them to overthink and play the precise thing you pointed out.
