2. Map Handicap

Due to the fact that many CS2 matches are played as best-of-threes, handicaps prevail. If a team is a heavy favorite, they might be offered a -1.5 map handicap. This indicates they should win the series 2-0 to cover the spread. Conversely, banking on the underdog with a +1.5 handicap indicates they win the bet if they win even a single map in the series.

3. Total Maps Over/Under

This market focuses on the length of the series. In a best-of-three, the "Total Maps" is typically set at 2.5. Betting "Over" indicates the wagerer expects the series to go to three maps; betting "Under" suggests a swift 2-0 sweep.
