- **The Goal:** Reach the top of the tower without striking a concealed danger (often represented as a bomb, skull, or trap).
- **The Reward:** With every successful step upward, the multiplier increases. Players can choose to "squander" their profits at any time or push their luck for a greater payout on the next tier.
- **The Risk:** Selecting the wrong tile ends the round immediately, and the gamer loses their stake for that run.

Difficulty Mode	Grid Layout (Per Row)	Safe Tiles vs. Traps	Threat Level	Typical Multiplier Growth
Easy	4 Tiles	3 Safe/ 1 Trap	Low	Sluggish and consistent
Medium	3 Tiles	2 Safe/ 1 Trap	Moderate	Balanced
Hard	2 Tiles	1 Safe/ 1 Trap	High	Fast acceleration
Specialist	5 Tiles (Varies)	3 Safe/ 2 Traps	Extremely High	Explosive payments

This modular approach makes sure that casual players looking for a relaxed session can adhere to the Easy or Medium modes, while thrill-seekers searching for massive multipliers can test their fate on Hard or Expert settings.
