The Top Slot Feature

Including an extra layer of anticipation to each and every single round is the **Top Slot**, a two-reel mini slot maker located directly above the primary cash wheel.

As the live host encourages gamers to position their bets, the Top Slot spins concurrently with the main wheel. It creates:

1. **A Bet Spot:** One of the wheel numbers or reward video games.
2. **A Multiplier:** A multiplier value varying from 2x approximately 50x.

If the primary wheel stops on the specific bet spot that aligns with the Top Slot's selection, the multiplier is used to that win. For basic numbers, the payment is multiplied. For reward rounds, the multipliers use to the preliminary worths inside the reward game, setting the phase for possibly huge payments.

The true heart and soul of Crazy Time are its four interactive bonus rounds. Whenever the wheel lands on a reward section, all players who positioned a bet on that particular section get to get involved.

1. Coin Flip

The easiest and most frequent bonus offer round. The host steps up to a machine that flips a coin with a **Red** side and a **Blue** side.

- Before the flip, random multipliers are designated to each side of the coin.
- The coin is instantly flipped, and whichever side lands face-up identifies the winning multiplier for the getting involved gamers.

2. Cash Hunt

This changes the screen into an enormous interactive shooting gallery including a screen with **108 random multipliers**.

- The multipliers are concealed behind different symbols (like a cactus, target, chef's hat, and so on) and after that mixed.
- Gamers are offered a crosshair to goal and fire at a sign of their option before the timer runs out.
- Once time expires, all symbols reveal their concealed multipliers, and players get the multiplier corresponding to the target they shot.

3. Pachinko

Motivated by the traditional Japanese arcade video game, this benefit round happens in front of a large physical wall filled with physical pegs.

- At the bottom of the wall are various multiplier zones, together with an unique **" DOUBLE"** zone.
- The host drops a puck from the top of the wall. As the puck bounces randomly down through the pegs, it ultimately lands in among the multiplier slots at the bottom.
- If the puck arrive on "DOUBLE," all multipliers on the board are doubled, and the host drops the puck again for an even bigger reward.

4. Crazy Time

The supreme perk round takes players behind a red door into a dynamic, virtual, Alice-in-Wonderland-style world featuring a colossal 64-segment wheel.

- Gamers must choose one of three flappers (Green, Blue, or Yellow) at the top of the wheel.

- The host presses a giant red button to spin the wheel.
- The wheel includes enormous multipliers, "DOUBLE," and "TRIPLE" sectors. If a flapper arrive on a double or triple, all multipliers on the wheel are increased accordingly, and the wheel spins once again. This can repeat until a shocking **20,000 x max multiplier** is reached.

Strategies and Approaches for Players
