Mystery Mines uses a 5-by-5 to 10-by-10 grid (size varies by level). The gamer taps a tile to reveal its contents. Ideas from surrounding tiles indicate the number of traps lie adjacent-- a nod to Minesweeper. In addition to traps, the grid can include:

- **Gemstones**-- collectible currency used to purchase upgrades.
- **Tools**-- temporary perks such as a "Safe-Scan" (reveals a random tile without danger) or "Shield" (protects one trap).
- **Mystery Chests**-- random reward crates that may contain cosmetics, extra lives, or benefit gems.

Development is measured in **stars** (1-- 3 per level) based on the variety of gems collected and the number of traps activated. Higher star counts unlock new mine zones and more tough configurations.
