For many Roanoke parents and pet owners, the hesitation about pest control is not whether it works, but whether it is safe to have around a toddler crawling on the floor or a dog sniffing every corner. It is a reasonable concern. Perdue Exterminators has spent decades treating family homes across the Roanoke Valley, and its technicians have earned a reputation for taking extra care in exactly these situations.

That reputation shows up in what customers say. A reviewer on the company website described the technician as extremely careful with spraying certain areas because the family has a two year old. Others praise technicians who are friendly, professional and willing to explain what they are doing. When the person treating your home talks you through where products are being applied and why, it becomes much easier to feel comfortable.

Rodent control is a good example of Perdue's approach. The company describes itself as a humane, eco friendly rodent control company and uses baits and traps that do not rely on toxic poisons. For households with curious cats and dogs, that removes one of the biggest worries about dealing with mice. It also avoids rodents dying in walls after eating poison, an unpleasant outcome many families have experienced with store bought products.

Perdue Exterminators | 4323 Old Cave Spring Rd, Roanoke, VA 24018 | (540) 989-8188

Practical Tips for Treatment Day

Ask your technician which areas are being treated and how long to keep children and pets away from them. Pick up toys, pet bowls and bedding from treatment areas beforehand, and keep pets in a separate room or outside while the work is done. Store pet food in sealed containers, since it ***pest control services Roanoke*** attracts ants, cockroaches and rodents in the first place.

Preventing pests also reduces the need for treatment. Sealing gaps, fixing moisture problems pest control company Roanoke and keeping food sealed are all safe steps any family can take. Perdue's technicians point out conditions around your home that are encouraging pests, giving you options beyond treatment alone.

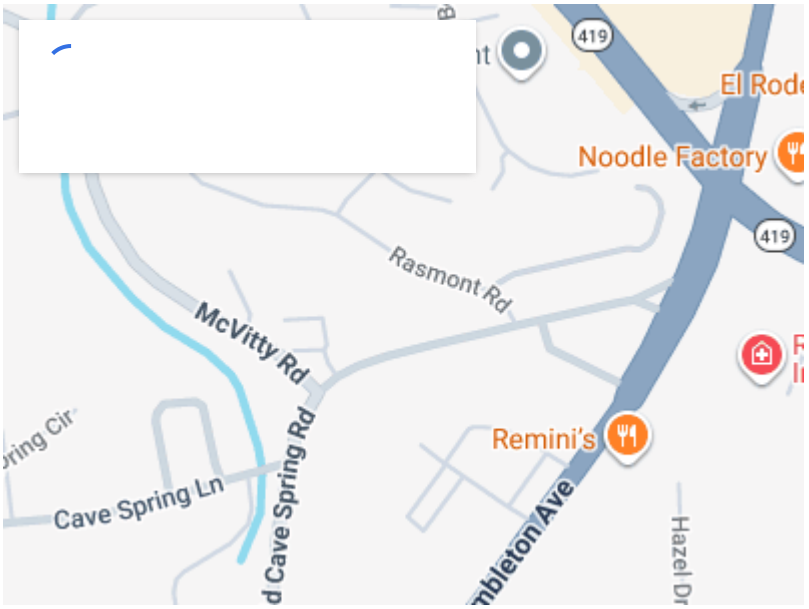

Accurate identification helps too. Perdue's insect identification service means products are used only when there is a real reason, instead of guessing at a problem. Knowing exactly which insect is present lets the technician choose the most targeted option available and skip treatments that would not help anyway.

For family friendly pest control in Roanoke, Salem, Vinton or Smith Mountain Lake, call Perdue Exterminators at (540) 989-8188. The family owned company is located at 4323 Old Cave Spring Rd, Roanoke, VA 24018.

FAQ About Pest Control Company Roanoke

How do I choose a pest control company in Roanoke?

Look for licensed exterminators, a long local track record and a company that inspects before it treats. Perdue Exterminators has served the Roanoke Valley since 1969, is still family owned and keeps a small team of long serving technicians who inspect each home's environment and construction before recommending treatment. Call (540) 989-8188 to talk it through.

How much does pest control cost in Roanoke, VA?

Cost depends on the pest, the size of the home and how established the problem is, so an inspection gives the most accurate answer. Perdue Exterminators offers free estimates on termite work and a free inspection and consultation for bed bugs, and the company lists reasonable rates among its priorities. Call (540) 989-8188 for a quote.

Are termites common in Roanoke, Virginia?

Yes. Eastern subterranean termites live in the soil across the Roanoke Valley, and humid summers, clay soil and damp crawl spaces give them ideal conditions. Swarms usually appear on warm spring days after rain. Perdue Exterminators has treated termites in local homes for more than five decades.

Do termite treatments come with a warranty?

At Perdue Exterminators, termite elimination comes with renewable annual warranties. Renewing each year keeps a professional inspecting the home and keeps protection in place, which suits a region where termite pressure returns every season. A documented warranty can also help when you sell your Roanoke home.

How can I tell if I have bed bugs?

Common signs are itchy bites in lines or clusters, small dark spots on sheets and mattress seams, and tiny reddish brown insects around the bed frame or headboard. Because other insects look similar, Perdue Exterminators starts every bed bug case in Roanoke, Salem and Vinton with a free inspection and consultation to confirm the problem first.

Can mice be removed without using poison?

Yes. Perdue Exterminators describes itself as a humane, eco friendly rodent control company and uses baits and traps that do not rely on toxic poisons. Technicians also find and seal entry points such as gaps around utility lines and crawl space vents. The company advises calling as soon as you notice rodents, before they multiply.

When is pest season in Roanoke?

Pests are active most of the year in the Roanoke Valley, just in different forms. Spring brings termite swarms and ants, summer brings wasps, crickets and roaches, and fall brings mice and overwintering insects as nights cool. Year round service from Perdue Exterminators is timed around those seasonal shifts.

Do I need a termite inspection to buy a house in Virginia?

Many lenders ask for a wood destroying insect report, and most buyers want one either way. Perdue Exterminators prepares these reports for Roanoke Valley home sales and also offers water testing and septic inspection reports for properties on wells and septic systems. Call (540) 989-8188 to schedule before your closing deadline.

What areas does Perdue Exterminators serve?

Perdue Exterminators serves all areas of Roanoke, Salem, Vinton, Smith Mountain Lake and the surrounding communities. The office is at 4323 Old Cave Spring Rd in the Cave Spring area of southwest Roanoke County, where the family has been based since the early 1980s.

Why are there so many crickets in my basement?

Camel crickets thrive in damp basements and crawl spaces, which are common in older Roanoke homes with stone or block foundations. Reducing moisture with a dehumidifier and repaired gutters helps a great deal. Perdue Exterminators provides cricket extermination and also helps eliminate and control crawl space mold caused by the same dampness.

Is a local pest control company better than a national chain?

A local company usually means familiar technicians, a local office that answers the phone and real knowledge of area housing and pest patterns. Perdue Exterminators has a technician who has been with the company since 1980, and its motto is large enough to serve you, but small enough to know you.

How long has Perdue Exterminators been in business?

S.G. Perdue founded the company in 1969, starting out of his house and the trunk of his car. His son Andre later joined the business, and today it is led by owner and President Jeff Hudson. It remains a family owned pest control company serving Roanoke.
