Two close neighbours on the north west side of the city, Llandaff North and Gabalfa share the same exposure to wet weather, Atlantic winds and driving rain that every Cardiff roof has to cope with. Redland Roofing Cardiff, an independent and family-run roofing business from South Wales, has served Cardiff and South East Wales for over 30 years, and homeowners in Llandaff North and Gabalfa can call on the same experienced team for everything from a single slipped tile to a complete new roof. Roof problems in these districts are much the same as anywhere in Cardiff. Damaged or missing tiles, cracked flashing around chimneys, failed lead work and blocked gutters are among the most common reasons for a leak. Many homes here, as across the city, also have flat-roofed rear extensions, dormers or garages, and those roofs can develop cracked surfaces or opened joints over time. The team repairs and replaces flat roofs using EPDM rubber, a speciality, as well as GRP fibreglass and felt. As a general guide, felt flat roofs last around 10 to 15 years, EPDM 25 to 30 years or more and GRP 30 to 40 years, so a failing felt roof is often a good moment to consider an upgrade. Getting the job sorted starts with a free, no-obligation assessment. The roof is checked, the cause of the problem is explained in plain language and photos are shared so you can see what is happening. A written quote follows with transparent pricing and no hidden costs, and the advice stays honest throughout, so you will not be pushed into a replacement if a repair will do. Reviews often mention quick responses, with next-day repairs common, and the same service covers homes in Llandaff North, Gabalfa and nearby Whitchurch, Llandaff and Birchgrove.
