18 Wheeler Accident Lawyer Near the Galleria and Loop 610 Houston The firm's principal office is on West Loop South, right beside one of the busiest stretches of the Loop 610 ring in Houston. Delivery trucks, box trucks and full-size tractor-trailers move through the Galleria and Uptown area all day, serving stores, hotels and construction sites. The tight ramps and sharp lane changes around Westheimer, San Felipe and the Southwest Freeway interchange make this a hot spot for commercial vehicle crashes. Being close to the scene helps. When you call Texas Truck Accident Lawyer after a wreck on the Loop, the team can get eyes on the location quickly, photograph skid marks and debris before they're cleared, and look for nearby businesses whose cameras may have caught the crash. Footage from shops and parking garages is often overwritten within days, so speed makes a real difference. Many Loop 610 crashes involve trucks cutting across several lanes to reach an exit, or swinging wide into the next lane during a turn onto the frontage road. Drivers have a duty to check their mirrors and signal in good time. When they don't, the carrier can be held responsible for the harm that follows, and Pike's team builds the case to show exactly where things went wrong. Being based in Uptown also means clients from inside the Loop can drop by the office without a long drive, which helps when you're juggling medical appointments. The team can review your photos, your crash report and any letters from insurers on the spot, and it can tell you what's missing. For people who can't drive yet, a phone or video meeting works just as well. Either way, you'll leave the first conversation knowing what the firm plans to do in the next few days to protect your case and what you should be doing in the meantime.

FAQ About 18 Wheeler Accident Lawyer Houston How long do I have to file an 18 wheeler accident claim in Texas? In most cases you have two years from the crash to file a lawsuit in Texas, and wrongful death claims usually have two years from the date of death. Claims involving a government vehicle or agency can require written notice much sooner. Texas Truck Accident Lawyer checks every deadline that applies to your Houston crash during a free consultation at (832) 250-4888. Who can be held responsible for an 18 wheeler crash in Houston? Responsibility can extend beyond the driver to the motor carrier, the trailer owner, the shipper or loader, the maintenance provider and sometimes a parts manufacturer or freight broker. Container trucks around the Port of Houston often involve several of these parties at once. The firm investigates each one so every source of insurance coverage is found. What should I do right after an 18 wheeler accident? Call 911, get medical care and, if you can, photograph the truck, its USDOT number, the trailer and the scene. Get witness names and numbers, and don't give a recorded statement to the trucking company's insurer. Then call a Houston truck accident lawyer so evidence such as ELD logs and dash camera footage can be preserved quickly. How much does an 18 wheeler accident lawyer cost in Houston? Texas Truck Accident Lawyer works on a contingency fee, so there's nothing to pay upfront and no attorney's fee unless money is recovered for you. The fee percentage is explained clearly before you sign anything. The firm also covers the cost of experts and investigators while the case moves forward. What evidence matters most in an 18 wheeler case? Key evidence includes the truck's engine control module data, electronic logging device records, dash and cab camera footage, the driver qualification file and maintenance records. Some of this can be overwritten within days, which is why the firm sends preservation demands to the carrier immediately and aims to interview witnesses within 48 hours. Can I still recover if I was partly at fault for the truck crash? Yes, as long as you were not more than 50 percent responsible. Texas uses proportionate responsibility, so your recovery is reduced by your share of fault. Trucking insurers often try to shift blame onto the other driver, and the firm uses truck data, witness accounts and crash reconstruction to keep fault assigned fairly. How much insurance do trucking companies have to carry? Federal rules require most interstate carriers hauling general freight to carry at least $750,000 in liability coverage, with higher minimums for oil and certain hazardous materials. Many carriers also have excess or umbrella policies. The firm identifies every policy that applies, including coverage held by trailer owners and shippers. Why are 18 wheeler crashes so common in Houston? Houston combines the Port of Houston, the Ship Channel petrochemical plants, major freight corridors like I-10, I-45 and I-69 and huge

distribution centers along Beltway 8 and the Grand Parkway. That volume of heavy truck traffic mixed with commuter traffic and frequent construction leads to crashes every day across Harris County. Do I have to talk to the trucking company's insurance adjuster? No. You aren't required to give a recorded statement to the other side's insurer, and doing so can hurt your claim later. Once you hire Texas Truck Accident Lawyer, all calls with the insurers go through the legal team so you can focus on recovering. Will my 18 wheeler accident case go to trial? Most truck cases settle, but the firm prepares every case as if it will go to trial because that preparation tends to produce better offers. Harris County truck cases may also be tried in phases under Texas rules adopted in 2021. You always make the final decision on whether to accept a settlement. Can I get help if I don't speak English well? Yes. Texas Truck Accident Lawyer serves Spanish-speaking clients across Houston and offers Spanish-language information so families understand each step. Consultations are free and confidential and can take place at the West Loop South office, by phone or by video.
