- **Liquidity**: Some items might be hard to offer quickly, especially those in the lower rarity tiers.

6. Tips for Collectors

- **Focus on "Covert" and "Gold" products**-- These yield the greatest ROI, though the chances are low.
- **Watch on Valve's release schedule**-- New case launches typically trigger older cases to appreciate as supply reduces.
- **Usage price-tracking tools**-- Sites like CSGOStash, Buff163, or SteamAnalyst supply real-time market data to inform purchasing decisions.
- **Shop items during market dips**-- If a skin's cost crashes after a case opening, holding it for a couple of months can settle when need resurges.
- **Consider raw case financial investment**-- Purchasing cases before a significant tournament (when gamer interest spikes) can be a low-cost, low-risk speculation technique.
