What is Big Bass Crash?

At its core, Big Bass Crash is a "crash game." Unlike classic slots where gamers spin reels and expect matching symbols, crash video games focus on a multiplier curve that climbs up in real-time.

In Big Bass Crash, the beloved bearded fisherman sets sail on his boat. As the round starts, the multiplier starts at 1.00 x and increases quickly. The primary goal is easy yet nerve-wracking: **cash out before the angler's net breaks or his catch escapes**. If a player cashes out successfully, they win their stake increased by the current value on the screen. If the video game crashes before they squander, the bet is lost.
