If the player squanders in time, they win their bet multiplied by the current coefficient. If the aircraft flies away (crashes) before they squander, the bet is lost.

Unlike standard casino video games dictated completely by rigid reels or static card offers, Aviator provides gamers a sense of company. The decision of when to collect jackpots rests completely in the user's hands.

This makes sure that the outcome of every round is completely transparent and can be individually confirmed by players, guaranteeing that neither the casino nor the designer can manipulate the results.

- **Live Statistics:** Players have access to real-time information revealing previous multipliers, ongoing bets from other participants, and a leaderboard highlighting the greatest wins of the day, month, and year.
- **Double Betting:** Aviator enables players to position 2 different bets on a single round. This opens advanced betting strategies, such as cashing out one bet early to protect earnings while letting the 2nd bet trip for a greater multiplier.
- **Car Play and Auto Cash Out:** For gamers who choose a structured method, the game offers automated features. Vehicle Play places bets automatically, while Auto Cash Out gathers payouts as soon as a predetermined multiplier is reached.
