## FAQ About Keyword

### What should I look for in a local plumber?

Look for experience, licensing, good reviews, clear pricing, fast response times, and the ability to handle both regular plumbing repairs and emergency plumbing needs.

## **When should I call an emergency plumber?**

Call an emergency plumber for burst pipes, major leaks, sewage backups, overflowing toilets, no working water, or drain clogs causing water to back up into the home.

## **What does a drain cleaning service do?**

A drain cleaning service removes clogs and buildup from sinks, tubs, showers, toilets, kitchen drains, laundry drains, and main sewer lines.

## **What causes clogged drains?**

Clogged drains are often caused by grease, hair, soap buildup, food scraps, wipes, tree roots, mineral buildup, or objects stuck inside the pipe.

## **How do plumbers clear clogged drains?**

Plumbers may use drain snakes, augers, trap cleaning, camera inspections, or hydro jetting depending on the clog location and severity.

## **How do I know if I need drain cleaning?**

You may need drain cleaning if water drains slowly, drains smell bad, toilets gurgle, or water backs up into sinks, tubs, showers, or floor drains.

## **Are chemical drain cleaners safe?**

Chemical drain cleaners can damage pipes and create safety risks. For serious or recurring clogs, professional clogged drain cleaning is usually the safer option.
