The hydrophobic surface created by System X ceramic coating causes water to bead and roll off a vehicle's paint rather than sitting and potentially causing water spots. This hydrophobic quality, applied by Gemstar Detailing's certified technicians, makes every <https://myanimelist.net/profile/elberthrum> future wash significantly easier for Boise vehicle owners, since dirt struggles to bond to the protected [vehicle ceramic coating near me](#) surface. Beyond convenience, this water repelling property also helps protect paint from mineral deposits and hard water spots common throughout the Treasure Valley's water supply.

Gemstar Auto Detailing Mobile Detail Boise | 880 E Franklin Rd Suite 306, Meridian, ID 83642 | (208) 971-4652

Boise customers can see this hydrophobic effect immediately after a proper ceramic coating application, a visible sign the coating has bonded correctly to the vehicle's clear coat. For hydrophobic ceramic coating in Boise, call Gemstar Detailing at (208) 971-4652.
